

# Troubleshooting on Molecular Cloning

Tuesday, 19.01.2010, 14.15 h

University Göttingen, GZMB, seminar room 0.233

**DR. ANJA MARTIN** - Product Manager at Fermentas Life Science GmbH - gives a lecture on **successful cloning** and on frequently asked questions and problems. The seminar is based on Fermentas' profound experience in troubleshooting and on more than **4000 solved cloning problems**. Benefit from Fermentas' long standing know-how and come to hear more about:

- Problems,
- Reasons and
- Solutions for successful cloning

**Free Product  
Samples  
are available**
